CONSPIRACY**"A THREE PIECE BAND PEOPLE ARE UNABLE TO PIGEON HOLE...."****ALL PEOPLE KNOW IS THAT THEY KICK ASS!!!"**

WHITE RAVEN DOWN exploded on the scene in May 2018 with their debut EP "Conspiracy" as a four piece band hailing from Essex, UK. Hard work and **COUNTLESS UK FESTIVAL APPEARANCES** prior to the pandemic saw them grow in popularity ready for the release of their debut album "Don't Shoot the Messenger" in April 2022 when they worked with famed producer **JOHN CORNFIELD**.

A month after its release the four became three when their vocalist left leaving the job of vocals to guitarist Stu Bailey.... Already rated as an **EXCEPTIONAL MUSICIAN** by press and peers alike, Stu Bailey embraced the challenge and took on vocals with as much **PASSION AND PROFESSIONALISM** as he has the guitar. Since then, Stu along with Luke Chappell on bass and Tom Mrazek on drums, have toured relentlessly and have gone from strength to strength culminating in the band being recognised by **HRH** as their "**NEW BLOOD**" **WINNERS** at the HRH Award Ceremony in November 2022.

Not content to conquer UK audiences, the "White Raven" spread its wings during 2023 and flew to **IBIZA AND THE CZECH REPUBLIC**, performing at two festivals and firmly placing the band in the hearts of a new audience and proving that their music will travel which was rewarded with a support slot for **SKINDRED** and airplay on UK's **PLANET ROCK**. And now after the release of "Stole My Light", their first single release as a three piece, the band cements the **EXCITEMENT** of the **EVER GROWING CONSPIRACY**.

FESTIVAL APPEARANCES INCLUDE: GIANTS OF ROCK; FIREVOLT; NOZFEST; STERNBERSKI KOPEC; WINTERSTORM; PLANET ROCKSTOCK.
